Dear Fred

We received your letter of 13th inst, & in reply may inform you that it would be extremely inconvenient for either of us to leave home at present, - We laid it before our Committee this evening and we are desirous to request you would point out "the things in our returns requiring explanation" and we would endeavour to satisfy you fully on the subjects - but as we had several urgent applications from distressed districts before us, our Committee did not deem it judicious to suspend our operations.

In making our grants latterly we are particularly cautious not to afford relief to districts where the recent act is in operation except in peculiar cases to individuals not connected with relief committees & those only for specific purposes.

We send herewith a circular which we enclose to parties to whom such grants are made - you will perceive by our returns that our grants

of money are very few

We enclose a recd for the preparation of home bread to which if practised by the poor would be found useful and if thou think, a small contribution of

rice or biscuit for the sick poor (for whom thou would prefer it) would be useful - we believe our Comtee would place such at thy disposal

In reply to thy letter of 14th inst. acknowledging receipt of our grant for the relief of the poor of the Parish of Clooney: we are directed to state, that it is inferred from thy note that our contributions have been handed over to the Relief Committee for distribution; which we by no means mean our intention, as very plainly expressed in the printed circular which accompanied the order. We do not wish to assist these Committees, in carrying out the provisions of the recent relief act as their resources are provided for independent of any private contributions and therefore any grant we make is only to meet cases of destitution not legally entitled to receive assistance under the act - or for the relief of the sick & convalescent poor - and it was principally for these purposes the food was supplied them - supposing that

would take charge of its distribution according to our intention & again requesting thy attention to the enclosed circular. Please &c. J. L. W. W.
